### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Charles E. Baxley on 3/22/2006.
3. The application has been amended as follows:
  - a. The word "in" in line 12 of claim 13 has been changed to "into".
  - b. The word "after" in line 12 of claim 13 has been changed to "when".
  - c. The phrase "to the annular head" in line 13 of claim 13 has been changed to "partially within the third space".
  - d. The dependency of claim 12 has been changed so that claim 12 is now dependent on claim 11.
  - e. The phrase "and the O-ring" has been added before the word "defines" in line 3 of claim 12.
  - f. The phrase "two ends selective one of which can be engaged with the rod of related one of" in lines 2 and 3 of claim 16 as been changed to "two ends, selective one of said ends can engage the rod of a respective one of".
  - g. The phrase "in order to engage the other pawl with the annular gear" in lines 3 and 4 of claim 16 has been changed to "in order to disengage the respective pawl from the annular gear".

4. The following is an examiner's statement of reasons for allowance: The art of record (considered as a whole) neither anticipates nor renders obvious a ratchet wrench comprising a direction switch positioned partially in a third space in an annular head for engaging selective one of two pawls, located in a second space in the annular head, with an annular gear, the direction switch defining a recess and a spring- biased rod detent positioned on the annular head for automatic insertion into the recess when the direction switch is moved partially into the third space, thus locking the direction switch partially within the third space while allowing the rotation of the direction switch on the annular head in combination with the rest of the claimed limitations set forth in the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
